EDUCATION

Institute of Aeronautical Engineering, Hyderabad, India	2023 – 2027
<i>B.Tech in Computer Science and Engineering</i>	<i>GPA: 7.8/10.0</i>
Sri Chaitanya Junior College, Hyderabad, India	2021 – 2023
<i>Intermediate Education</i>	<i>Percentage: 86.40%</i>
Sri Chaitanya Techno Curriculum, Hyderabad, India	2021
<i>Secondary School Certificate (SSC)</i>	<i>GPA: 10/10</i>

INTERNSHIPS

MSME Tool Room, CITD (Summer Intern – Deep Learning)	May 2025
- Completed internship focused on Deep Learning concepts and applications. - Implemented neural network models for image classification tasks. - Performed dataset preprocessing, model training, and evaluation. - Worked on practical machine learning workflows.	

PROJECTS

Object Detection Model — Python, OpenCV, Machine Learning	May – Jun 2025
- Built ML pipeline for object detection using dataset preprocessing and training. - Improved prediction accuracy through tuning and evaluation. - Implemented real-time inference using Python and OpenCV.	
Mini Search Engine — Python, Algorithms, Information Retrieval	Nov – Dec 2025
- Implemented crawling and indexing logic for efficient query retrieval. - Designed ranking and query processing for relevant results.	
Online Learning Platform — React, JavaScript, SQL	Jul – Aug 2025
- Designed responsive platform for course and resource management. - Integrated backend data handling for dynamic content delivery.	
Additional Projects	
- Women Empowerment Awareness Web Application - Other mini frontend/backend practice projects	

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript
Tools: Git, GitHub, VS Code, Eclipse IDE
Front-End: HTML, CSS, JavaScript, Bootstrap, React.js
Back-End: Node.js, Express.js, RESTful API design
Databases: SQL, JDBC

CERTIFICATIONS

Certification in Python Programming — NPTEL	<i>Mar 2025</i>
Certification in Cyber Security — Intern Vision	<i>Jun 2025</i>
Certification in Data Science — Udemy	<i>In Progress</i>
Certification in AI & Machine Learning — Udemy	<i>In Progress</i>

E-PORTFOLIO

- Portfolio:** Bhageeratha.dev — Interactive developer portfolio featuring deployed projects, technical experiments, and ongoing full-stack and AI-based developments.
- GitHub:** github.com/N-Bhageeratha — Code repositories showcasing personal and academic projects.
